

WHAT IS Better Care America?

Better Care America is a health care education project powered by America's Health Insurance Plans (AHIP), patients, and partners. Everyone deserves affordable coverage and high-quality care. That starts with knowing the facts and telling the truth about health care. Better Care America is educating policymakers and the public, and elevating solutions that expand access to affordable health care coverage to all Americans through a competitive marketplace that fosters choice, quality, and innovation.

Our commitment is to work hand-in-hand with policymakers and the public to guarantee that every American has affordable coverage, access to high-quality care, and control over the health care choices that are right for them. Our work explores topics including **COVID-19, employer-provided coverage, Medicaid and Medicare Advantage, prescription drug prices, and social determinants of health.**

Health care works for millions of Americans today. But we know there's much more to be done to ensure that it works for everyone. It's our responsibility to act. Through Better Care America, we're working to ensure every American has affordable coverage, access to high-quality care, and control over their health care choices.

Better Care America is listening to and talking with hard working Americans across the country. We're asking what they like, what they don't like, and how we can help make it better. We're bringing those same people together with their elected representatives in Congress.

Health care shouldn't be complicated and confusing. That's why we're providing more tools and resources to improve what's working and fix what's not in today's health care system. We're committed to working together to make health care more affordable, protect pre-existing conditions, and strengthen benefits — **because the health of hardworking Americans is our top priority.**

For more information about how health insurance providers are stepping up to fight COVID-19, [visit AHIP's resource page](#). To hear from Americans about their experiences with health care coverage, visit <https://bettercareamerica.org/stories/>.

We're creating effective resources and educating policymakers and the public. We're making connections and building lasting relationships. And we're always here for you and the people you serve.
