- **Two-thirds of independent AZ voters (66%)** are concerned about allowing federal subsidies for ACA health coverage to expire considering the recent reports of rising inflation.

Priority of Congress Protecting Individuals Receiving Health Care through the ACA from Facing an Increase in their Premiums

Text provided to respondents: In March 2021 Congress passed the American Rescue Plan Act which included subsidies to lower monthly health insurance premiums for individuals currently receiving health coverage through the Affordable Care Act (ACA). Currently Congress is considering making these subsidies permanent or allowing them to expire at the end of 2022. If the subsidies expire, individuals currently receiving these subsidies would experience an increase in their monthly health insurance premiums.

Methodology: This poll was conducted between April 15-20, 2022, among a sample of 299 AZ registered voters. The interviews were conducted online, and the data were weighted to approximate a target sample of AZ registered voters based on gender by age, educational attainment, race, marital status, homeownership, race by educational attainment, and 2020 presidential vote. Results from the full survey have a margin of error of +/-6 percentage points.
